

Gentlemen:

The practice of forced
starvation & water deprivation of hens must be banned
if only for the slightest chance of salmonella
poisoning of human beings. The cruel & heartless
practice is so stressful that it destroys ~~and~~ or
weakens the hen's immune system and leads
to contamination of eggs with deadly sal-
monella. Forced molting must be stopped
as it is the primary cause of infectious
diseases of hens, eggs, and submitters of eggs.

Sincerely,

J. L. Porada
